Medium : syedareehaquasar

## Languages

English

Hindi

Arabic & Urdu

## Education

2019-2023 B.Tech. in Computer Science and Engineering

MAIT, GGSIPU

9.648 CGPA, 90.560 %

2018-2019 class XII

St. Margaret Sr. Sec. School

PCBM, 90%

2016-2017 Class X

St. Margaret Sr. Sec. School

CBSE, 10 CGPA

## Projects

July, 2020 Safe User Experience

Phishing Detection application using ML. [Link](#)

July, 2020 Invisible Cloak

OpenCv project to make yourself invisible. [Link](#)

July, 2020 Twitter Sentimental Analysis

Sentimental analysis model for assessment of COVID-19 tweets. Its a project made under IBM hack 2020. [Link](#)

June, 2020 Pluto - AI Desktop Voice Assistant

AI desktop assistant designed in python which takes various voice commands and performs tasks such as searching web, opening different utilities, sending emails and interacting. [Link](#)

May, 2020 Conway's Game of Life

Built Game of Life, also known simply as Life, a cellular automaton. Built using Pygame. [Link](#)

May, 2020 Chess Game & PGN Parser

A classic Chess game using Pygame and a PGN parse displaying string or FEN notation when PGN file is Parsed. Documented using pelican. [Link](#)

May, 2020 Plant Disease Detection

Designed a browser-based UI and UX design application using Figma. [Link](#)

April, 2020 COVID-19 Awareness Website

Its a website for public welfare and of interest. Created using HTML, CSS and bootstrap. [Link](#)

## Achievements

March 2020 - Women Techmakers Engineering Fellow scholar, Google sponsored

Present Selected as one of the 126 impact makers from over 15,000+ applicants for a 2 year experiential program.

Aug 2020 IamRemarkable facilitator

Empowering women and other underrepresented groups.

Feb 2020 - Contributor, GSSOC

May 2020 Rank - 89. Contributed to 4 projects.

Sep 2019 - HULT Prize 2020, GGSIPU

Oct 2019 Part of Core team and Design department head.

Certificate signed by Mr. Bill Clinton(former US president).

Jun 2020 IBM Hackathon 2020

Designed twitter sentimental analysis model for COVID tweets.

## MOOCs

IBM badge certificate: Python for Data Science, Cloud Core, Data Science Foundation

Cognitive Classes: Introduction to Data Science, Python 101 for Data Science,

Introduction to Cloud, Node-Red basics to Bot, Python for ML

Progate: GIT version control, Python, Java

SoloLearn: HTML

Coursera: CSS

## Communities

International Organisation Of Software Developers, Girl Code It, Enactus MAIT, TechCom, Mendyc

## Interests

Learning new Languages, Art and Craft, Basket Ball and Chess.

Competitive coding and Code Debugging.
